Instructions

Who should file this form

The certificate, Form IT-2104, is completed by an employee and given to the employer to instruct the employer how much New York State (and New York City and Yonkers) tax to withhold from the employee's pay. The more allowances claimed, the lower the amount of tax withheld.

If you do not file Form IT-2104, your employer may use the same number of allowances you claimed on federal Form W-4. Due to differences in tax law, this may result in the wrong amount of tax withheld for New York State, New York City, and Yonkers. Complete Form IT-2104 each year and file it with your employer if the number of allowances you may claim is different than on federal Form W-4 or has changed. Common reasons for completing a new Form IT-2104 each year include the following:

- you started a new job;
- you are no longer a dependent;
- your individual circumstances may have changed (for example, you were married or have an additional child);
- you itemize your deductions on your personal income tax return;
- you claim allowances for New York State credits;
- you owed tax or received a large refund when you filed your personal income tax return for the past year;
- you have significantly more or less income from other sources or from another job;
- you no longer qualify for exemption from withholding; **or**
- you have been advised by the Internal Revenue Service that you are entitled to fewer allowances than claimed on your original federal Form W-4, and the disallowed allowances were claimed on your original Form IT-2104.

Employee: detach and give first page to your employer; retain pages 3 and 4 for your records.

Exemption from withholding

You cannot use this Form IT-2104 to claim exemption from withholding.

To claim exemption from income tax withholding, you **must** file Form IT-2104-E, *Certificate of Exemption from Withholding*, with your employer. You must file a new certificate each year that you qualify for exemption. This exemption from withholding is allowable only if you had no New York income tax liability in the prior year, you expect none in the current year, **and** you are over 65 years of age, under 18, or a full-time student under 25. If you are a dependent who is under 18 or a full-time student, you may owe tax if your income is more than \$3,000.

Avoid underwithholding

Form IT-2104, together with your employer's withholding tables, is designed to ensure that the correct amount of tax is withheld from your pay, so that you do not have to pay additional tax when you file your return.

You may **not** claim a withholding allowance for yourself or, if married, your spouse. Claim the number of withholding allowances you figure in Part I on page 3 of this form. If you want more tax withheld, you may claim fewer allowances. If you arrive at negative allowances (less than zero) on lines 1, 3, or 20, and your employer cannot accommodate negative allowances, enter "0" and ask your employer to withhold an additional dollar amount each pay period by completing lines 4, 5, and 6 on the allowance certificate. For each negative allowance claimed, you should have an additional \$2 of tax withheld each week. You may also consider filing estimated tax, especially if you have significant amounts of non-wage income. Estimated tax requires that payments be made by the employee directly to the Tax Department on a quarterly basis. For more information, see the instructions for Form IT-2105, *Estimated Income Tax Payment Voucher*. If you need assistance, see *Need help?* on page 1. **If you claim more than 14 allowances, your employer must send a copy of your Form IT-2104 to the New York State Tax Department.** You may then be asked to verify your allowances.

Income from sources other than wages

— If you have more than \$1,000 of income from sources other than wages (such as interest, dividends, or alimony received), reduce the number of allowances claimed on line 1 of the IT-2104 certificate by one for each \$1,000 of nonwage income. If you arrive at negative allowances (less than zero), see *Avoid underwithholding* above.

Other credits (line 13) — If you will be eligible to claim any credits other than the credits listed, such as an investment tax credit, you may claim additional allowances as follows:

If you expect your New York adjusted gross income to be less than \$50,000, divide the amount of the expected credit by 60 and enter the result (round to the nearest whole number) on line 13.

If you expect your New York adjusted gross income to be more than \$50,000, divide the amount of the expected credit by 70 and enter the result (round to the nearest whole number) on line 13.

Example: *You expect your New York adjusted gross income to exceed \$50,000. In addition, you expect to receive a flow-through of an investment tax credit from the S corporation of which you are a shareholder. The investment tax credit will be \$160. Divide the expected credit by 70. $160/70 = 2.2857$. The additional withholding allowance(s) would be 2. Enter 2 on line 13.*

Married couples with both spouses working

— If you and your spouse both work, you should each file a separate IT-2104 certificate with your respective employers. You should each check the box *Married, but withhold at higher single rate* on the certificate front, and divide the total number of allowances that you compute on line 20 between you and your working spouse. Your withholding will better match your total tax if the higher wage-earning spouse claims all of the couple's allowances and the lower wage-earning spouse claims zero allowances. **Do not** claim more total allowances than you are entitled to. If the total income of you and your spouse is between \$100,000 and \$150,000, use the chart in Part III to compute the number of allowances to transfer to Part I, line 19.

Taxpayers with more than one job — If you have more than one job, file a separate IT-2104 certificate with each of your employers. Be sure to claim only the total number of allowances that you are entitled to. Your withholding will better match your total tax if you claim all of your allowances at your higher-paying job and zero allowances at the lower-paying job. In addition, to make sure that you have enough tax withheld, if you are a single taxpayer or head of household with two or more jobs, reduce the number of allowances by two on line 1 on the certificate you file with your higher-paying job employer. If you arrive at negative allowances (less than zero), see *Avoid underwithholding* above.

Dependents — If you are a dependent of another taxpayer and expect your income to exceed \$3,000, you should reduce your withholding allowances by one for each \$1,000 of income over \$2,500. This will ensure that your employer withholds enough tax.

Following the above instructions will help to ensure that you will not owe additional tax when you file your return.

Heads of households with only one job

If you will use the head-of-household filing status on your state income tax return, check the *Single/Head of household* box on the front of the certificate. If you have only one job, you may also wish to claim two additional withholding allowances on Part I, line 14.

Married couples with only one spouse working

If your spouse does not work and has no income subject to state income tax, check the *Married* box on the front of the certificate. You may also wish to claim two additional allowances on Part I, line 15.

Penalty - A penalty of \$500 may be imposed for any false statement you make that decreases the amount of money you have withheld from your wages. You may also be subject to criminal penalties.
